FOR MAYOR

Tom Potter.

At last, someone worth our trust.

As Portland's Police Chief, Tom proved himself to be a different kind of leader. He changed the face of policing for the better, and helped make justice and understanding the hallmarks of the Portland way of life. Now, Tom is running to bring that approach to *all* of City Hall.

Tom Potter knows that small and large businesses are the key to economic success. Tom will streamline city bureaucracy and build cooperative relationships between businesses, schools and neighborhoods to create a healthy climate for the responsible growth of social and economic wealth for all Portlanders.

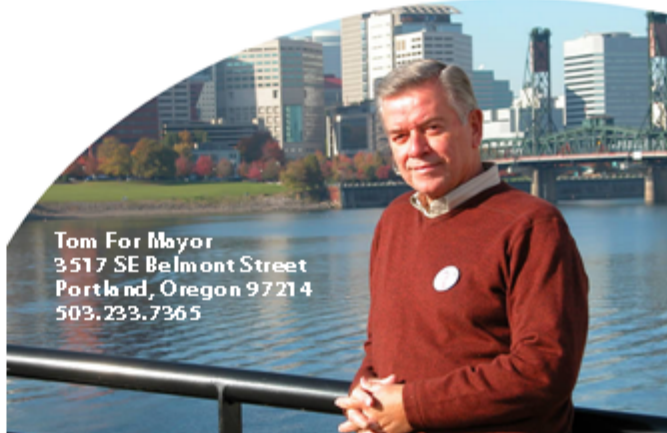

Tom Potter understands that every child is important. As mayor, Tom will work to stabilize and reinvigorate public education by increasing local control and building regional partnerships to develop an assured funding base.

Tom Potter stands for stable schools, safe neighborhoods and strong businesses. As mayor, Tom will lead us back to a Portland where the voices of citizens and community organizations help shape the city—as full partners in fair, efficient and responsible governing.
